INTER SONIC FORUM

Pros and Cons vs Classic Switchers based on Dedicated Hardware

Abbe Westerlundh, Technical Product manager ImagPROcessing Barco Senior VAR & ProAV Account Manager

In this Seminar Abbe Westerlundh, Technical Product Manager for ImagePROcessing in Barco will explore and explain the differences between the two technical platforms. Abbe more than 20 years ago wrote a evaluation of the first computer based switcher, the NewTech TriCaster for Svenska Monitor. Since then much has happened and will explain when and why we need the one or the other.

5 Topics are looked at in this seminar:
Latency
Flexibility
Scalability
Predictability
AVoIP Open Standard AIMS/IPMX
 Språket är på engelska.
