## Light & Colour Or - LEDs and how we use them

### Robbi Nassi Field Project Coordinator-Benelux

An introduction into the world of LED color mixing as the suitable replacement for Tungsten Luminaires. With the power of the ETC EOS Colour Tools to discover how LED Lighting fixtures reach further into the corners of the CIE color space to grab a red that is essential to accurately capture the life within every shade of skin, the warm glow of firelight, and the romance of sunset. As a Theatrical Practitioner, Lighting Designer, Technician, Programmer, Scenic or Costume Designer, gain insight into the advantages of an additive colour mixing array.
